MRS. TYLER DEAD.

of the Widow of President Tyler at RICHMOND, Va., July 11.—Mrs. Tyler widow of the late John Tyler of Virginia, ex-President of the United States, died in this city yesterday afternoon at the Exchange Hotel.

hange Hotel. Mrs. Tyler came here last Sunday from Mrs. Tyler came here had been visit change Hotel.

Mrs. Tyler came here last Sunday from William sburg, where she had been visiting her son. Lyon G. Tyler, president of William and Mary College. She gave or ders at the hotel to be awakened at a certain hour Monday morning, as she desired to visit her son, Hon. Gardiner G. Tyler, at "Sherwood Forest," Charles County, and when called she said she was too unwell to leave. Instead of improving she grew worse and at eleven o'clock yesterday she was taken with a congestive chill, and died at fifteen minutes past five. Mrs. Tyler was seventy years of age and married President Tyler in the White House at Washington. She was a Miss Gardiner, of New York. None of her family are in Richmond, but they have all been notified by telegraph of her death, and are expected to arrive here today to arrange for the funeral.

Mrs. Tyler leaves four children—Lyon G. Tyler, president of William and Mary College, Va.; Gardiner G. Tyler, who lives in Charles County, Va.; Dr. Laclan Tyler, of Washington City, and Mrs. William E.lia, of Montgomery County. She was hore on Gardiner's island.

Mrs. William Ellis, of Montgomery County. She was born on Gardiner's island, near East Hampton, N. Y., in 1820, and educated at the Chegar Institute, New York City, and after a short time spent in travel through Europe came spent in travel through Europe came to Washington with her father in 1844. A few weeks after their arrival they accepted an invitation from President Tyler to attend a pleasure excursion down the river on the war steamer Princeton. The festivities on this occasion were sadly marred by the exploration of grun on the vascel country loss. sion of a gun on the vessel, causing loss of life. Among those who were killed was Miss Gardiner's father. His body was taken to the White House and Miss Gardiner was thrown a great deal into the soiner was thrown a great deal into the so-ciety of the President, because of the pe-culiar circumstances attending her father's death. President Tyler's first wife had died shortly after he entered the White House, and the President paid Miss Gardiner marked attention, which resulted in their ma 'iage, June 18, 1844. For the successions a months of which resulted in their ma 'iage, June 16, 1844. For the succeeding e. months of President Tyler's term she presided over the White House with tact, grace and dignity. After March 4, 1845, Mrs. Tyler retired with her busband to the seclusion of their country place, "Sherwood Forest," on the banks of James river, Virginia. She remained in Virginia until after the civil war, her husband having died about the beginning of the strife, and then went to reside at her mother's and then went to reside at her mother's residence on Castleton Hill, Staten Island.

After several years' residence there she removed to Richmond, Va., where she died. BURKE MUST COME.

fartin Burke Held For Extradition Upon the Charge of Complicity in the Cronin

WINNIPEG. Man., July 11.-Argument in the proceedings for the extradition of Mar-tin Burke, under indictment in Chicago for the murder of Dr. Cronin, was had yesterday morning. The defense, Messrs. Perdue and Campbell, in their speeches assailed the evidence, which they held did not connect the prisoner in any way with the murder of Dr. Cronin and did not prove that Cronin was murdered in the Carlson cottage or that Burke knew Cronin, or that he had any malice against

and contended that it had made a clear

and contended that it had made a clear enough case to justify extradition.

Judge Bain delivered judgment immediately. Speaking of the depositions before the Chicago grand jury, to which objection had been made by counsel for defense, he said: "It only remains for me to consider if the evidence in these depositions and witnesses is sufficient to justify main committing the prisoner for extrame in committing the prisoner for extra-dition. There is no doubt but that the crime is within the meaning of the Extra-

Here the judge read the provisions of the act and continued: "I have in this matter to act in the same manner as if the prisoner was brought before me, sitting as a magistrate or justice of the peace, charged with an indictable offense com-

The judge then reviewed the evidence and said that to him it supplied such a strong presumption of guilt that he could not take upon himself the responsibility of setting Burke free as he would do if he did not commit him. He therefore, in the terms of the act, committed Burke to the nearest jail to await extradition, the prisoner standing up while the commit-ment was pronounced. He explained that he had given judgment immediately as the full court was now sitting and the question could be brought before them immediately on application for a writ of habeas corpus

abeas corpus. The necessary warrant for Burke's commitment was then made out and Burke was removed to jail. An application will be made to the Department of Justice at Ottawa at once for Burke's extradition, but the prisoner will be given fifteen days' grace in which to appeal from Judge Bain's decision.

TRAIN WRECK IN MEXICO.

Four Dead and Many Seriously Injured at Chihuahua.

EL Paso, Tex., July 11.—The regular passenger train on the Mexican Central railroad which left Paso del Norte at six o'clock Monday evening had been running slowly all night in anticipation of washouts, and having passed the dangerous places was traveling at a rapid rate to make up for lost time when it ran into an arroya five miles this side of Chihuahua and every car was shattered. There hus and every car was shattered. There had been no rain where the accident occurred, but the underpinning of the bridge had been washed out by a torrent caused by a cloud burst in the

ountains. There were twenty-five passengers injured and two people killed outright—a guard in the express car of Wells, Fargo & Co. and a passenger in a third class coach. Conductor Jerry Sullivan had four ribs broken and the newsboy had his large broken in two places. leg broken in two places.

Bold Bunch.

GAINESVILLE, Tex., July 11.—It was learned yesterday for the first time that E. F. Bunch, the noted train robber, who is popularly regarded as the author of half a dozen exploits of that kind, has been in the city during the past two weeks, for about two days, and circulated around the city disguised as an old man. He was formerly county clerk and lived here for years and his reappearance was the boldest act of his life. On June 26 he registered at the Lindsay House in this city under the name of John Hinds.

A detective arrived here hunting for

A detective arrived here hunting for Bunch the day the latter left and it is sup-posed he was informed by some friends of the fact that the detective was after him.

Montreal, July 11.—A robbery took place yesterday within the walls of the convent. A Franchman attired in the garments of a Trappist, claiming to have just arrived from abroad, entered the institution and asked for Father Gibbon, who at that time was ill and could not be seen. The Trappist order is highly estemed by Catholica, and this man was received with open arms. He became intimate with Father Stewart, of the Trappist entablishment, who had just disposed of \$4,000 worth of butter and had deposited the money in his room. The stranger went quietly to the room, took the meney and left. No trace of the thief can be found.

A Railroad Suffers.

Brazzi, Ind., July 12.—The Vandalia and the Chicago & Indiana coal roads are suffering from the strike of the block coal miners. The last named two report earnings for June at \$20,000 below those for June, 1888. They attribute the decrease to the atrike.

Drowned in the River.

Affairs.

Privaguage, Pa., July 12.—A party of thirty-one non-union men left this city yesterday morning for Homestead to work in the Carnegie steel plant at that place. When the train arrived at Homestead is was surrounded by a crowd of strikers who frightened the new men so badly that only three succeeded in getting inside the mill. The others ran away, closely followed by the strikers crying "seab," but no stones were thrown or blows struck and no one was injured.

The aspect of affairs is serious and trouble is looked for within the next few days. President Weibe and Secretary Martin, of the Amalgamated Association, have established headquarters at the scene and will do all in their power to prevent disorder.

The sheriff has notified the men to keep away from the company's property under penalty of arrest. The firm is making preparations to start the plant and will

The excitement at Homestead was greatly increased yesterday afternoon when at two o'clock a Baltimore employment agent and three German workmen were discovered at the entrance to the Homestes mill. A committee of strikers interviewed the men and gave them fifteen minutes to get out of the town. This the Baltimore agent refused to do and showed fight, when the strikers knocked him down, kicked him and beat him terribly. Two of the strikers picked him up and carried him nearly a mile through the town, men, women and children pounding and kicking him all the while. His nose was broken and the clothing torn from him. His persecutors left him lying in a semi-conscious condi-tion in a vacant lot. He finally recovered sufficiently to stagger to the depot where he boarded a train for this city, arriving

The three Germans started to run at the first alarm of danger, but were followed by a number of strikers who kicked them and knocked them down, tore their clothing and beat them terribly. They finally escaped from their pursuers, took to the hills and have not been seen since.

HORSES AND MULES BURNED. ther Stable Horror at Kansas City-

The Eighth in Fifteen Months. KANSAS CITY, Mo., July 12 -Five horse and ten mules perished in a fire at 1318 Grand avenue at 11:30 o'clock last night. A new two-story building at that number, owned by Con Holmes, was occupied by F. M. Slutz's feed store on the first floor and basement. The third floor is a G. A. R. will occupy. The fire's origin is unknown. Two boys saw flames shoot out the back door on the first floor and gave the alarm. Three carloads of hay, 1,500 bushels of oats and 10 wagons were on this floor. The fire had a fair headway by the time the depart-ment arrived and the horses and mules ware roasted by the hurning feed that fall were roasted by the burning feed that fell upon them. In the rear of the building large double doors from the stable open upon an alley but no one was on hand soon enough to open them and untie the stock. The floors and partitions in the interior of the basement and first story were partially burned away, the hay was all destroyed and the oats either burned or made valueless by water. The losses on the stock and feed are \$2,800 and on the building \$1,000. The property is fully insured in three or four companies. The building was completed only about six weeks ago. This fire makes the eighth where horses and mules were burned within fifteen months. The origin of all these is shrouded in mystery.

EXCITED MINERS.

The Trouble at Braidwood Nearing Crisis.

CHICAGO, July 11.—A special from Braidwood, Ill., says: The most intense excitement prevails here over the report excitement prevails here over the report that Sheriff Huston, of Will County, has been ordered with a posse of deputies, armed with rifles, to go to to the Godley mine to protect a number of miners who will work at the mine. Word has been sent out and the miners are massing, evi-dently for the purpose of taking posses-sion of the mine betters the deputies arrive. There is every prospect of a con-flict and bloody times are expected. The men, most of whom are starving. if the programme is carried out there will be more than men to contend with. Hun-creds of women, who have been driven half crazy from hunger, will confront the rifles of the deputies and will make it unpleasant for the officers of the law to exercise orders. The miners are in conference and unless they back down alto gether, which is totally unlooked for there will be serious trouble.

Strong But Restricted.
Minneapolis, Minn., July 12.—The
Northwestern Miller says: "As a result of most of the mills observing the Fourth of July as a holiday there was quite a depreciation in the flour output last week. The aggregate product of the fourteen mills which ran 93,465 barrels, averaging mills which ran 93,465 barrels, averaging 15,577 barrels daily—against 115,000 the previous week and 117,400 for the corresponding time in 1888. The flour market is strong, but the demand is a good deal restricted by recent advances. Prices were marked up about 10 cents the past week, and the sales, while moderate, do not any more than take care of the current output, if equalling it. Some firms report a better trade than others, this being par-ticularly true of foreign business. Within a day or two there has been a largely inreased inquiry for low grade and sales have been made at very satisfactory

Confessed to a Horrible Crime.

DETROIT, Mich., July 12—William Sharkey, recently arrested at Toledo, has confessed to the murder of the miser and hermit, Coleman Dupes. He admits that he dragged the body inside the old man's hut and set firs to the building. Sharkey says that John Holloway and Elias Taylor, both now in jail, were implicated. The object was robbery, but they failed to get their victim's money.

Indian Scrip Transfers.

Washington, July 12.—During his term as Secretary of the Interior Secretary Vilas, in a decision involving the right of a Sioux half-breed to transfer his scrip, held that such scrip was not transferable. Since that time a motion has been made to reopen the whole matter for reconsideration, a large quantity of such scrip having been issued and transferred. The arguments of the question of reporting the matter has been commenced before a court composed of Secretary Noble, Assistant Secretary Chandier and Assistant Attorney-General Shields. The cases which are being heard are those of Allen vs. Merritt, Hyde vs. McDonald and Oertly vs. Campbell.

A Railroad Suffers.

Brazil, Ind., July 12.—The Vandalla and the Chicago & Eastern Illinois and the Chicago & Indiana coal roads are suffering from the strike of the block coal miners. The last named two report earnings for June at \$20,000 below those for June, 1888. They attribute the decrease to the strike.

ARRESTED AND RELEASED.

pulled into this city at 10:20 o'clock yesterday morning a crowd of people surged around one of the cars to see John L. Sallivan, who was known to be on board. A rumor soon obtained circulation that a requisition was fa the hands of the police, several of whom had boarded the car. Some discussion and finally a struggle was seen in the car, and an officer reached over with handcuffs in his hand, seized the slugger's arm and pulled him out into the aisle. Sullivan resisted.

Muldoon who occupied the same seat put his head out of the window and cried to the crowd: "Gentlemen, I demand American protection." His patrictic wail was greeted with a variety of responses.

was greeted with a variety of responses.
Some cheered Sullivan and begged him to "knock the coppers out." Others cried: "Hurrah for the Nashville police" and "hit him with your club."

behind the sill and informed the crowd that "the cops have out their guns." After a brief struggle Sullivan was taken from the car and hustled to a carriage. In the scuffle he drew back to knock down a policeman, when Chief Clack stuck a plated in his face and told him if he struck

would kill him The officers next grabbed Charlie John-on, of Brooklyn, Sullivan's backer, who esisted vigorously, but finally began to During the scrimmage, Muldoon sat

quietly by and was undisturbed. Mike Cleary, Sullivan's other second, hid in the excitement, and a man named Lynch jumped off the train. Only Johnson and Sullivan were detained, although the others were wanted. The arrest was made by authority of a

the arrest was made by authority of a telegram from Governor Lowry, of Mississippi, to the Nashville police. Bullivan has retained ex-Attorney-General W. H. Washington, who says that the officers went beyond their authority and can not hold their men. An immediate attempt will be made to get the parties out on a writ of habeas corpus.

Governor Lowry's telegram offers a reward of \$1,000, and it is believed that if

ward of \$1,000, and it is believed that if released on the present charge Sullivan will be re-arrested in order to secure time for a requisition to be obtained.

SULLIVAN RELEASED.

NASHVILLE, Tenn., July 12.—The question whether John L. Sullivan and Charley Johnson could be legally held in custody to await requisition papers from Mississippi was argued in the circuit court here yesterday afternoon. The de-fendants' petition for a writ of habeas corpus was read, stating that they had been arrested on no process known to the law and held without any charge against them and without shadow of legal author-

not subject to legal restraint. They had committed no felony in this or any other The counsel discussed the matter at length and finally Judge McAllister rendered his decision. He was very emphatic in his opinion that to hold Sullivan longer would be a most arbitrary act on the part of the court; that the officers had arrested him without warrant or authority of law; that misdemeanors were not ex-

ity: that they had committed no offense

traditable by the rulings of Tennessee courts and by precedents of Governor Taylor. He therefore ordered Sullivan released.

There was an immense crowd present and the decision of the judge was greeted with great applause. Sullivan was made a hero of and the town was his until he left it at eight o'clock for the East.

KILRAIN WANTED.

CINCINNATI, July 12.—Governor Foraker

received the following telegram yesterday:

JACKSON, Miss., July 11.—Please direct chie of police at Cincinnati to arrest Jake Kilrain, Charlie Mitchell and Pony Moore and hold them until requisition can reach you. Charge, crime of prize fighting in this State.

In reply Governor Foraker repeated the telegram to Colonel Philip Dietsch, chief of police here, and asked that official to act in accordance with Governor Lowry's request. He also sent a telegram to Gov-ernor Lowry, saying: "Your request has been complied with."

One of Kilrain's personal friends learned of the Governor's message to the chief of police before two o'clock yesterday afternoon, and he immediately telegraphed to Kilrain, who was on the Ohio & Mississippi train No. 2. The Kilrain party received the dispatch west of Seyn received the dispatch west of Seymour, Ind., and hastily bundling up they left the train when they reached that point. Arrangements had been made by wire for the party to go south until they reached the Chesapeake & Ohio road, which was to hold the "Fast flying Virginian" for them. The Cincinnett detective bearded the train The Cincinnati detective boarded the train at the State line, but Kilrain had fled. The crowd on the train at Cincinnati laughed at the chief of police, who was waiting at the depot, and he retired badly disappointed, Kilrain was in good spirits on the train.

The Persian Minister. Washington, July 12 -The State De-partment will make no effort to induce the Persian Minister to withdraw his resignaon and remain at least a while longer this country. It has been suggested that this ought to be done in order that America and American interests in Persia may not suffer in consequence of the Minister's refusal to serve longer in a country which he claims has insulted his sovereign. The officials of the Department of State say that the Minister has made no complaint to them and that if he had the best they could do would be to write him a letter disavowing any sympathy or connection with the unpleasant newspaper criticisms of the Shah. Inas-much, however, as the Minister has taken no official cogn zince of the matter the department can do no less than ignore it

A French Steamer Sunk.

London. July 12—The French steamer
Anadyr, bound from Marseilles for Yokohama, has been sunk outside of Aden bar by a collision with the French steamer Oxus from Yokohama for Marseilles. The Oxus was only slightly damaged.

CHICAGO, July 12.—The Anglo-American Provision Company's warehouse was damaged by fire to the extent of \$40,000 early yesterday morning. The smoke from the "green" hams stored in the building was remarkably dense and sti-fling and six firemen were overcome. It

Newspaper Consolidation.
OMAHA. Neb., July 12.—The proprietors of the Omaha World have bought the Herald and will run the combined papers usuald and will run the combined papers with morning and evening editions. The Republican has made overtures to sell out also to the World.

Tanner Smiled.

Washingron, July 12.—Commissioner Tanner's attention being called to the report that his resignation had been or would be called for by the President, smiled and said that some people were after him and he did not propose to begin to contradict every thing that was said. "Of course," he continued, "all men do not think alike and opinious differ." Assistant Secretary Bussey, in referring to the matter, said that Mr. Tanner's resignation had not been alluded to in any shape or form at the conference between Secretary Hoble, Commissioner Tanner and himself, and that only matters pertaining to business in the Pension Office.

Recent experiments in England show that whole wheat at the rate of three-quarters of a pound for each aloop is not only a safe cereal food, but one of the best, and, at current prices for wheat, one

Never attempt to work a colt before it is four years old. While service may be secured earlier from a well-grown colt, yet it is a risk to begin with a colt too soon. Give him plenty of time to mature, but break him in early, imposing but little work on him.

Work on him.

Oats make one of the very best feeds, and especially during the summer, when such materials are needed as will always develop bone and muscle rather than fat. Bran and linesed or oil meal are nearly the only feed that most farmers can afford to buy, and by cutting the oats and adding, a cheap mutritious food is secured that turnished the elements most desired during the summer.

Those who patronize creameries can not derive full profit therefrom unless swine-breeding is made a pursuit. The whey and buttermilk is sold to the patrons at a very nominal price, and can be put to ex-cellent use if made a part of the rations of hogs. Very often the only profit to be made is from the hogs, the milk about paying the expenses of the food of cows and swine.

Growing colts need something that will aid to make a good devolopment of bone and muscle, and work teams need strength which a good growth of bone and mu will supply. One of the best materials for this purpose is good, sound oats. While they should not be made an expensive food, yet only such other materials as are necessary to make up a good variety need be added, and the team will do more and better work and keep in a good condition with less discomfort than with any other

grain. reports the very best range up there this year. It is the finest in years and the grass is not wanting in nutritive qualities. Thinking this year would be the last whack they would get at the Indians' grass the cattlemen were disposed to make the best of it, and the consequence was that nearly all the cattle in the country ere taken up there to be fatted. They went up by tens of thousands. But for all that the range is not at all overstocked.

There is an astounding statement print-ed to the effect that "the hulls of the cotton-seed of the cotton States will produce more beef, butter, milk and cheese, more wool and mutton, than all the clover and blue grass of Tennessee, Kentucky and Ohio." And yet it appears to be true. Ohio." And yet it appears to be true. An Atlanta firm fattened 5,300 beeves last year on cotton-seed hulls at a profit of \$20,000. Jel Chandler Harris, an authority on fox hounds, bees and Jerseys, is feeding his herd on cotton-seed hulls, and says the result in milk, butter and beef is amazing. In the Southern Farm W. M. Towers, of Rome, writes of a test between corn, cotton-seed meal and cotton-seed hulls, in which the latter produced vastly better results. And yet until a year ago cotton-seed hulls were used as fuel for engines or cast away as worthless -Atlanta

FARM NOTES.

Keep up the cultivation in the garden

For the first two or three years keep th soil well stirred around the pear trees. Early turnips can be utilized in severa the table, the latter being used as greens. A patch should be seeded and left over for an early supp y of winter or spring

A zigzag rail fence is supposed to be one

of the cheapest that can be built, but un-less the corners are kept free of weeds it is the most expensive fence that can be used, as it increases the labor of weed-One of the best garden implements is the rake. If used reqently on the young weeds it saves hoeing later in the season. By raking between the rows of plants once or twice a week but little labor will be required, while much benefit will be

imparted to the crops. Tomatoes may be trimmed of the lower branches and made to grow somewhat in the shape of a tree. The main stalks of the plants become stocky and are better able to bear the weight of the fruit. By supporting the vines on posts or arms more air and sunlight will enter, thus

ripening the fruit more perfectly. When it is desired to cut two or mor crops of grass from a field the grass should be cut before the seed-heads form, as the grass has performed its mission when it has seeded; hence if the cutting is deferred until the seed is ripe there will be no second crop of importance. Such crops as Hungarian grass and alfalfa may be

cut every five weeks. Our crops in Kansas this year [will be the best and largest ever before known, and the indications for high prices are good. We expect the farmers of Elisworth County will realize over \$1,500,000 for their wheat alone. It brings joy to our heart to think our people will soon be independ-ent in such a flourishing condition.—Ellsworth (Kan.) Reporter.

Prof. E. M. Shelton, of the Kansas State Agricultural College, who has been con-ducting experimental farming at Manhat-tan, has recently been trying several different varieties of winter wheat. He recently left with Secretary Mohler a small sack of beautiful wheat raised on one piece of ground, which he says at the rate it yielded would go forty-seven bushels to the acre. He is experimenting with other varieties which he thinks will average fifty bushels to the acre.

Farmers from different parts of Black-hawk County, Iowa, report that a strange insect has been found at work in the corn-fields. It is a small green bug which works at the roots of the corn and seems to desiroy its vitality. The ground in some fields appears to be fairly alive with these pests. Under a magnifying glass they are found to have heads armed with pinchers, between which is a sort of pro-boscis that is used to puncture the stalk. Corn attacked by these pests turns yellow and ceases to grow, and a large number of fields have been attacked.

-Good, sound arms are the ball player's stock in trade, but there is any number of

etock in trade, but there is any number of them who do not seem to be aware of this fact. Especially is this true of young players, who seem to think that they have a guaranty of a soft position until disqualified by old aga. But this is an erroneous idea. Many young players who gave promise of becoming famous a year or two since have dropped out of sight altogether, and many are on the verge of oblivion to-day. Look at "Home Run" Duffee, for instance, who had all St. Louis crasy during the first of the season, and who is now seldom mentioned in the Mound City papers. Wagenhurst and Foster, too, of the Minneapolis team, are examples. Many young players wantonly destroy the power nature has endowed them with. Often you see them, out and infielders, practicing pitching, not with the idea of making twirlers of themselves, but just to see how swift they can nitch. They endeavor is avertical. not with the idea of making twirlers of themselves, but just to see how swift they can pitch. They endeavor to execute all the drops, and shoots and curves of their skilled confreres of the box, and this is the cause of many a sore and strained arm. Umptre Briody used to be one of the steel-armed cohort, and he was always pitching in preliminary practice, although a catcher, and to-day he can't throw a ball from the box to second base even on an arched throw. A good arm to a ball-player is what a sound hand is to a pagilist, or sound limbs are to a race horsa.—Omaha Bee, CHURCH DIRECTORY

POSTOFFICE HOURS:

After ten years exclusive usle can now be obtained of all Druggists and Desiers in Medicines. It CURES-take notice-not simply helps but CURES LIVER COMPLAINT, Billiousness and Dyspepsia.

Is a strictly veretable preparation and will CURE MALABLA, and all MALABLA troubles. Dr. S. H. Wise, of Boston, Ky. says: "Have practiced medicine is years, and find no equal to Herring as a Liver Regulator."

Dr. W. A. Baker, of Madison, Fla., says: "As bottle of Herring is worth more than \$5.00 worth of Quinine in any family"

Acting on the Liver is a different way from any other medicine; \$\frac{1}{2}\$ is a positive case for Chronic Constipation and is cheaper than Pika. Its peculiar composition is such, that we guarantee to care any case of Chills and Fever or Billious Fever with one bottle.

It costs but 75 cents and each bottle contains over 40 average doses, making the cost less than two cents a dose. Would you ask for cheaper medicine? It is not a cure-all. But will care say Liver, Bilions or Malagrial Complaints. Manufactured by
